Not all secrets should be kept

October 09, 2014

How does one deal with the aftermath of child abuse? Secrets is about four sisters who as adults have each answered that question. Each sister found her own balm for easing the hurt of her emotional wound, including one who denied it ever happened.

However, when the sisters learn that the abuser, who is their father, plans to marry a woman who has a little girl, the past comes alive again. Has he reformed or will he still be a threat? The sisters must come to grips with what they believe really happened. They can't correct the past, but can they do something in the present to protect a little girl's future.

Secrets is well written and tastefully treats a difficult subject. It is well worth reading.

Great Projects

August 17, 2013

These projects will bring out the child in anyone. Though I bought the book to share with grandkids, on looking through it, I realized I was going to be learning along with them. Great illustrations! Easy directions! And I can't wait to get started on a few of the recipes that are also included in the book.

Perfect for your Fairy Princess

August 17, 2013

Bought this book to share with my young granddaughters. Both love gardens and, naturally, fairies.

This Disney book talks about the garden fairies of Pixie Hollow. It includes beautiful illustrations and charming fairy garden hints. For example, plants like you to talk to them.

Perfect for Tiny Gardens

August 17, 2013

I've already created a few fairy gardens. If I hadn't I'd probably have given the book 5 stars. It has great pix, but what worked for me the best was the information on small plants that would be successful in a miniature garden. I'd recommend this book for a beginning or intermediate fairy gardener. :)

great accessory for DeLonghi grill

April 16, 2012

Since a flat griddle pan doesn't come with the DeLonghi Grill, this accessory is needed if you want to cook pancakes or eggs on it. This flat griddle fits perfectly with the DeLonghi grill and is easy to clean.

Waste of Money

January 03, 2012

Followed the directions but find the top doesn't work well. I've used water bottles before. You just pull up on the top and drink. Not with this one. I ended up twisting off the top and emptying the contents into a glass.

Good Food

November 09, 2011

My dog is a fussy eater. The small bites were perfect for her since she's only 6 1/2 pounds. I'd give it 5 stars if she woofed it

down. She didn't but that's not unusual. She's picky. However, if it weren't worth four stars she'd have not eaten it at all. :)

Fun gardening

August 17, 2013

This book has numerous photos of tiny gardening projects. Directions are simple. The back of the book says there are 35 projects contained in Teeny Tiny Gardening. Haven't counted them, but will certainly be trying some of them. I'd recommend this book for garden projects for themselves or to give as gifts.

I sent this book to my seven-year-old granddaughter. Her mom, my daughter, was a kindergarten to third grade teacher. My daughter told me that she and my granddaughter enjoy reading this book because it gives them the opportunity to talk about all the ways that one can shine whether one is good at a specific sport or not. Following my daughter's recommendation I will be ordering another copy of this book to send to my three-year-old granddaughter. :)
