Simple technology

July 28, 2014

Marvelous! this is our second WH21. The first one lasted 35 years! The light shows when the electric is on, there is an override switch (to do laundry on off times), and it's easy to reset when power goes out. That's why we bought another one just like the first one. Easy to install and works like a charm! Simple technology is best.

This little book is a wonderful resource for someone who wishes to contemplate life, death, love, friendship, time...and what is meaningful to the individual. The suggestion of "stillness" is wise. Hands on history in a book

June 10, 2011

This account of Lewis and Clark's journey across our new frontier is a delight. There are exact replicas of letters to Lewis's mother, a code between Pres Jefferson and Lewis, replicas of tattered maps, journal segments, which the reader can actually handle! It is a "museum in a book," as the cover states. I would give this 10 STARS! (A former school teacher!) JULIE GIESSLER

Leather care that works

March 24, 2014

Following the directions...use the cleaner first, let the leather dry, and then apply the conditioner. It is sticky at first but when it dries, it leaves a nice finish and seems to keep the leather supple. We used this on leather chairs. You need to put drop clothes down so that the cleaner and conditioner doesn't get on your floor. Excellent product.

Reviewed Letters from Sea, 1882-1901: Joanna and Lincoln Colcord's Seafaring Childhood ... by Parker Bishop Albee

Excellent

May 06, 2011

I thoroughly enjoyed the account of a family that lived the last days of sailing ships on the sea. Their letters are very insightful and it is wonderful that they have been preserved. Thank you for offering this delightful book. We will be attending an Elderhostel (August, 2011) in Camden, Maine, which focuses on the days of sailing ships and the life such a family lived. The Colcords illustrate how families long for togetherness and lovingly share their lives through the written word, often enduring long stretches of time between letters. The details of daily life take on new meaning. As Emily Dickinson wrote: "The days of life goes on like the nibbling of a mouse," and those "nibbles" become charged with meaning as one reflects on these moments. This book offers such fascinating insights. The pictures are most helpful. I highly recommend this book for a delightful journey into the daily life of a sailing family.
