After reading this, I decided I want to BE Piper! What an engaging, compelling character, both kick-ass and vulnerable at the same time! The action was fast paced and the paranormal elements believable. The relationship between Piper and Slade was hot, hot, hot. I can't wait to read more by this author!

### A great read!

April 26, 2011

I love a story where a person is taken from their real life into a fantasy world and I love sci-fi, so this book was perfect for me. It's not easy to find a good sci-fi romance and I'm so happy to discover this author. Even though there is another world involved, the author does a great job of world-building and making the situation and characters believable. Fast paced action and hot romance make this book a winner!
