Pretty sucky Dalek

January 31, 2014

I purchased this item for our son. One would anticipate a windup toy, once wound up, to move around. This little guy is orthopedically challenged. You have to keep poking it to get it to move.

using it for a gnome garden

When you pair this with Tom Clark's seated gnome, it really looks as though he is drinking coffee. Very pleased with purchase.

Excellent book for the fairy garden enthusiast.

October 07, 2013

This book was one of the best on creating fairy gardens that I have found to date. I would definitely recommend it.

This turned out to be quite a conversation piece for the family to whom it was gifted. Those friends enjoy sharing it with their friends.

Attack of the Killer Tomatoes

Boy do these stakes work well on EVERYTHING I have used them on! They are a one-two Jobe spike punch for plants, and they really bring out the blooms in them. Love them.

Creative and fun book.

July 10, 2013

I purchased this book as much for the whimsical illustrations as for the exercises to jump start creativity. On both counts, it was a winner.

Smaller than expected

July 15, 2013

I realize the dimensions of the product are offered at the time of purchase. However, this is a pretty small vase. Guess I was imagining it as somewhat larger in size. Works well with a flower blossom in it when setting a festive table for guests.

July 15, 2013

This volume did not turn out to be what I had thought it might. The title led me to think it would have more to do with writing and setting forth memories in a new light, in regard to a legacy; however, it was pedestrian in the extreme. I did not care for it.
