wow!

August 16, 2014

This is a GREAT FAOTD (8-16-14). I have no idea yet how to use it, but I sure am excited to learn! I've been wondering how to set up my own server, and it looks like this is the perfect app for me! Thank you, Amazon for making this the FAOTD, and thank you, Ice Cold Apps for creating it! I now want my own "junk" android device that I can turn into a server. (This is my first android device, Galaxy Tab 4, 10.5, and I am loving android!!) Once again, thank you! Once I learn the app some, I'll come back here and report what it's like for a total "newbie" to use this app.

small is Wonderful!

June 13, 2014

I first found this book at my local library, and quickly decided I HAD to have it! When it arrived I tore into the package; I was as excited as a child on their birthday. I haven't yet been able to create my mini garden, but I am gathering supplies to do so! Living in a small apartment, these miniature world's are the perfect way for me to combine two of my 'loves' into one... gardening and miniatures.

Excellent book

May 01, 2014

Excellent read, but was a bit disappointed with how abruptly it ended. I felt it could have continue for a few more chapters and wrapped up a few loose ends.

Not a bad time waster. A bit repetitive, though.

The Joy of Sodoku!

July 19, 2014

I grabbed this when it was FAOTD, thinking I'd try it and probably remove it from my tablet. I have attempted the paper version of Sodoku before, and it just wasn't my thing. I got insanely bored the day after installing this and decided to give it a whirl. I am so very glad I did! I ran through the tutorial, and then attempted my first easy puzzle... and promptly screwed it up! I decided to try one more time, and I became hooked. I'm now on the medium setting, and attempted my first hard one yesterday (required my first hint - ever!). Don't let the lack of eye-candy and ear-candy turn you away. I'm actually glad for it, as I have sensory processing disorder and the low-key style is just what I need to be able to focus. I do have to say, that while at first this game WAS offline play, as soon as I connected to amazon gamecircle, it sadly started requiring internet. Please fix this! :) For folks who are wavering on purchasing this... I do recommend it - and I rarely write reviews!

I don't see why they bothered.

December 25, 2013

I don't see why they bothered - release date of Dec 3rd, and they now say that Ebuddy is no longer active and it shuts itself down. This is on my iphone as well - I bought it a lot time ago, as it was the best way to use google chat for me at the time. Now, it is all SMS(?) - and NO google chat. ARGH.

Don't bother getting it, or downloading it. NOT WORTH YOUR TIME OR EFFORT. A once great program has been, alas, abandoned.
