This is my second pair if Think sandals. They were recommended by a friend after she heard me complain about not having good arch support in the sandals I was wearing. I'd never paid this much for a pair of sandals, but found they were well worth the money. I've had my first pair for two years and they are still in great shape and provide the arch support I need. Will continue to buy these for their comfort and quality.

The author explains proportions and the details about making the garden ,as well as, giving many suggestions for themes to personalize the garden to your liking.

Worth the price

September 07, 2012

First time I read this author. Was a little hard to follow some of the minor characters in the book. Was worth the read if you need something light to read between novels.
