Reviewed *Upstairs at the White House: My Life with the First Ladies* ...

Great read

June 06, 2014

Upstairs at the White House is a wonderfully informative inside look at the operations of the White House. I found it to be extremely respectful...not an expose' as some memoirs are these days. I learned a great deal about modern American history even though I am a student and lover of history.

Many inspiring ideas

June 06, 2014

I wanted to build a fairy garden for my daughter-in-law but really did not know where to start. Fairy Gardening helped me figure out the basics and my imagination filled in the rest. There are all kinds of ways to make a garden, big or small, outdoors or in, themed or natural.

Shiniest brass in town!

June 06, 2014

My husband has enjoyed reloading for several years now but expressed his desire to have a tumbler to polish the brass before reloading. I purchased this for him and he has been very pleased with the results. He shows off the gleaming metal to everyone!

Hovering balloons are magic!

May 06, 2014

The Blue Dolphin hovering balloon was big and beautiful and a huge hit with my dolphin-loving nine-year-old. When I had it inflated, there were several spectators who were enchanted with the huge, shiny, dolphin. I love to give the hovering balloons to everyone!

Exciting, Inspiring, and Emotional

November 04, 2013

I would give "I, Saul" ten stars if allowed. This fictionalized story of Paul and Luke is exciting, inspiring, and emotional. It gives a Biblical and historical view of events in Rome that led to the execution of Christians and anyone else considered an enemy or threat to the Emperor. I am anxious to read the sequel scheduled to be released next year.

This book is terrific. It is not written like a cookbook, but rather an informational story about canning etc. I like it.

Perfect for our purpose.

December 09, 2010

We were in need of a tub to collect ash in our coal stove. The furnace came with one but it was a hassle to dump the pan without turning off the stove. With a spare tub, we can set the empty container in the furnace and allow the full, hot tub to cool before disposing it. We're very pleased with the wash tub. It also arrived VERY quickly, which was great.

I had to delete this app from my Kindle because it would not load properly. Others commented that they had the same problem. I would really enjoy this app if it gets straightened out.

Gifted to a very happy four-year-old.

June 06, 2014

I purchased this puzzle for a young birthday girl who is a WHIZ at puzzles! She absolutely loved it and after one assisted assembly she began putting it together solo and loves it. She is crazy about butterflies and, as with all Melissa and Doug products, this was a beautiful design.

My third pair!

June 06, 2014

I have been purchasing Teva Olowahu sandals for years. I love the way they fit, look, the many color options and the soft sole. This blue color combo is very pretty and goes with everything. I remember paying at least twice as much for my first pair of Teva sandals which I purchased retail. These were priced very nicely!

I'd give it seven or eight stars...even though I haven't finished it yet! Very compelling story

April 07, 2014

Very compelling story encompassing actual events woven into the illusion of time travel. Leave it to Stephen King to write a book that is as real as it is unreal and as irresistible as chocolate. If you enjoy history...or not...read it!

Very, very detailed

November 05, 2012

The Finish is a remarkably detailed book revealing issues before, during, and after the search for Bin Laden. Bowden also provides an incredible amount of detail about the American personnel, their debate, plan and execution of the epic project. The author dispels many popular myths and outlines concisely the facts of the event. A very good read.

Reviewed LISTENING TO PAKISTAN: A Woman's Voice in a Veiled Land ...

A picture drawn with words!

March 07, 2012

Dailey provides a rich description of the people, places, and customs she encountered in her travels through Pakistan. A seasoned traveler, she does not shy away from the chasm of differences in culture from west to east. Where I found myself cringing at her descriptions of accommodations, hygiene, and food, she embraced them non-judgementally. Her descriptions of the rugged scenery are breathtaking. Accounts of diverse personalities and her encounters with women, children and, especially men, are intriguing, leaving the reader wondering if the exchange will be positive or stifled by Muslim gender customs. Dailey is fearless, willing to take a chance on engaging the Pakistani people to hear their hearts, their dreams, and their needs. I would love to see color photos of the places she describes and hear the story of each souvenir she brought home. Having said that, however, the story is the prize.
