July 28, 2014

Used to be a Mod Podger, not since I found Royal Coat. Amazing stuff. Won't stick to other coated surfaces after dry the way the 'other' stuff did. I use it on paper, beads, have done metal, shell, rock, wood, plastic, even cloth with good results. Dries clear and lays on nice, gives a nice satin sheen, not glossy.

July 28, 2014

Not built to last, quality not good for high price health item. Size was definitely closer to a small than medium. Stuck with over \$25 support, with no return option because they were tried on. Not pleased at all. Would recommend finding a firm return guarantee policy from seller before buying something like this.

Loved this book from start to finish!

July 26, 2013

I absolutely loved this book. Sandra is a fabulous writer, who truly captures the characters unique personalities and applies them logically to the story, as well as weaving perfectly, the description of places, people, events, and things in a real way that transports a person as if they were actually there. Thought provoking storyline gives some great food for thought, and brings inspiring awareness that what any of us do affects our planet and all living things... how everything is connected, and the outcome of even a small choice can make a big difference, either positive or negative. Very inspiring story. I'm crossing fingers and toes that there will be a sequel in Zera's future. Highly recommend this book. I found it hard to leave the story for breaks.
