Best coastal design book

February 05, 2013

If you are looking for coastal inspiration, this is the book. He is excellent! Very good taste. This is not a flea market style book though so buyer beware. He is decorating homes where people have money to spend. It still gives great ideas for color, style, etc which can be used on a budget. Loved it.

Ok style

February 05, 2013

I found the inside of the book was full of inspirational pictures if you like that designers style. I found the picture on the front of the book to be my most inspirational. Unfortunately, that was pretty much it for me. Other books much more inspirational....not just on the cover.

how to make bee skeps

July 23, 2013

This dvd is basically about how bee skeps are made. It really is a charming irish story of a couple of very old Irish gentlemen going about getting their materials for the skeps, doing the weaving as well as chatting about the bees, the daily goings on in their lives and the town. However, I was not able to understand hardly anything they said. Visually I was able to follow what they were doing. It was quite interesting and because I have some knowledge of weaving, I would say I could make a skep now.
